Version:	VER 1.0A	Verified:	08/23/2001	Release:	Rel.1.0d

Problem: SRB (SERVICE REENLISTMENT BONUS) Worksheet does not take into account Zone C members.

Zone C is a member with 10-14 years of service and reenlists for 5-years. This would take him to 18 years. The Navy will only pay up to the 16 year mark and the next 2 years the service member would not be entitled to an SRB. When the worksheet calculates the SRB it figures beyond the 16 year point.

Solution: 1. SRBWKFM - Added textboxes for ADSD and months over 16-yrs. Added code to calculate members "Zone" for worksheets. Changed SRB calculations to prorate if some of a reenlistment extends beyond 16-years of service.

2. R034 Worksheet. Added fields for ADSD and months over 16-years. Also, added fields for member's Branch of Service, "Zone" and years of service.

3. RECASRB2.PRG -modified code to adjust SRB if some of members reenlistments extends beyond 16-years of service.

(See Attachment).

NOTE: Include in release Version 1.0d.

	:	Rejected:	/ /	Tester:	JOHN CARTER

Problem: 1) The Counselor Assignment Page Report needs to be in Department order with the Division counselor for that department directly under it. R036.

2) On the Input Counselor section, if you delete a counselor they still show up on the "Members Who Are Counselors Page". If you edit the counselors to put in the new one for that Dept/Div no change occurs on the "Members Who Are Counselors page". There is also no reason for the "Retention Team Member Section" in this report because they are all retention team members. (R018)

Solution: 1) Removed colmumn "Retention Team Mem?" and removed page footer. Before and after copies are attached. Also, changed rpts.more field from "Members Whor Are Counselors" to "Members Who are TRained Counselors". Changed format for total field from 9999 to 99999.

Problem: 1. There is noway to keep track of personnel enrolled in the Navy National Apprenticeship Program.

Solution: 1. Added fields to CHELP.DBF, RPTS.DBF, ARCHIVE.DBF.
2. You can now track personnel enrolled in the Navy National Apprenticeship Program (NAP). The Education page of the CIPM screen has a NAP section with six NAP input fields to store member's NAP information.
3. You can print a NAP Tracking report from the General Reports screen.

	:	Rejected:	02/02/2000	Tester:	JOHN CARTER

Problem: We need a report that tells us who has not attended the CITC. There is one showing the dates people went, but none listing just the ones that didn't attend.

Solution: 1. Change the default report record selection criteria to include the CITC date range. A blank date implies no CITC training. Otherwise, the member is has been trained. Quick Query:"DATES: CITC 1900.01.01 TO 2000.02.02".

Advanced Query: "NOT EMPTY(CITC)".

2. Left the default Quick Query as is. Report will list all members who have been trained (those with a CITC training date) by default. Erase the beginning and ending dates to list all members who have not been trained.

3. Modified controls rptqry...cbofuc and cbolog to modify advanced where: "and empty (citc)" or "and not empty(citc)" to report members who have not taken CITC training or those who have.

NOTE: Include in release Version 1.0d.

Problem: On the "Career Counselor's Directory Report", take out the word phone in the report since it already is at the top of the page. List Department coueslor with it's respective Division counselors for that Department directly under it.

Retest:

1. Quick Query UIC dropdown list contains only two UIC's. It should show all counselor UIC's, The same is true of the DEPT and DIV dropdown lists.

2. Quick Query Ranges for Idenitifer are defaulted disabled. Should be enabled.

3. The report column headers need to be rearranged to (1) Name, (2) Rate, (3) ID, (4) Access Level, (5) Command/Officer, (6) Dept, (7) Div.

4. All counselors are included in a report eventhough the IDENTIFIER range is "SYSADMIN" AND "SYSADMIN".

5. The default ADVANCED Query should be from minium(IDENTIFIER) to maximum(IDENTIFIER).

6. Chief Harris, NASI, 735-8846. Need a way to determine Client to Counselor ratio in a report, i.e. the number of clients assigned per counselor.

Solution: 1. R035 - Changed grouping to UIC with new page on change. Moved "Name/PRD/Phone" and "RATE" columns to left edge of report.

2. RPTQUERY.SCX - Modified code in 'seeking' procedure to enable quick query identifier combo boxes.

Problem: 1. Add Print DD2648 Print button to CIPM Retention Page/Separation Section (See attachment). (Moved to Bug 089).

2. NC1 Monteleone, Iwo Jima, 457-4667.

a) Retention screen:

- 1) First of all can you change the "guard elig" to be an YES/NO field instead of a check in the box? And can you re-label it to Guard 2000 eligible?
- 2) In the separation block; can you include the noun name of the "DD 2648", and the "DD2586 rcvd"? Also can you change the "CNO Quest" to the "Navy separation questionarre"?
- 3) "next assgmt" and "orders" appear to be the same thing. Can you change it to "next assgmt/orders to" and have a "program reenlisting for" block? And can you re-label the "reason for" block to "extended for"?
- 4) Under the "term" block We really dont need to have "second" term. Everyone is either on their first term or they are a careerist.
- 5) NC1 Carter USS Hue City. Add "Transferred" and "Unplanned Loss" to the other 4 choices of Final Action. There are numerous times when we transfer members without reen/disc/flt rsv/extend.
- 6) MC Eaton. Drop "ENCORE Sent?" field.
- 7) MC Eaton. Change "CNO Quest" to "RET/SEP Quest".
- 8) MC Eaton. Change "PROGRAMS" field to "Date Transferred" field.

b) Adv Screen:

- 1) On the same page; The "TIR" and "DOR" don't always inport into these fields? I often have to manually type these in.

c) ASVAB Score Screen:

- 1) We no longer need the old style ASVAB scores. If someone has an old style ASVAB score they probable have almost 20 years of service and wont be eligible any type of conversion anyway.

d) Education Screen:

- 1) Change the "off duty ED" to "currently enrolled in off duty ED", and make it a yes/no field instead of a check in the box.
- 2) Change the "Navy LEAD" to a field block that counselors can select the level of NAVLEAD attended. Example E-5, E-6, E-7. And re-label it to "NAVLEAD".
- 3) Change the "PFQ" or "PRTQ" block to a drop down field where I can select their Physical Readiness, example: "p/ws", "f/ws", etc... instead of a check in the block.
- 4) The "DCQ" is not needed, recommend changing it to "DEPT Counselor", and change the "counselor?" to "DIV counselor".
- 5) The "3MQ?" block is also unnecessary. Change it to "HYT waiver?"
- 6) On the "other Qual" change it to "other warfare qual" and make it a drop down field for personnel who are triple warfare qualified.
- 7) "SI score" is not needed or wanted.
- 8) on the "SQW Date", make it "ESWS qual date"
- 9) on the "AWQ Date", make it "EAWS qual date"
- 10) The PNEC and SNEC and SH/SDCD dates don't always import, or they import with "xxx" instead of numbers.

e) Eval Screen:

- 1) Can you put a note on this page to "enter most recent eval in the top block". And can you increase

Bug # Description

this page to include the
last 5 evaluations. And can you bring back the option to "add new year"? By clicking this option (add
new year) it will shift all evals down one so you can
enter a new eval in the top block and the oldest eval on the bottom will drop off?

2) Can you add a pull down field to include the members "promotion recommendation", (example;
EP/MP/P/etc....) and can you re-label the "recommended" to "Retention recommended"?

3) Can you remove the "0.0" in the eval block fields? Our evals are now whole
numbers, there's no more 3.8/3.6/etc....

f) Basic Screen:

1) Can you add an option to have "primary" and "secondary" warfare qualifications. That way
counselors will be able to enter dual quals
as many sailors now have two or three warfare quals.

2) Under the "name" block can you add a note that says "last, first, mi" so
counselors who are entering personnel manually will enter the members name in order.

g) Interview Screen:

1) 1C2 Michael Morencygray 564-4900. Add HYT row to the Interview Data table: HYT Interview, HYT
Interview Due Date, HYT Interview Completion date.

Solution: 1. Corrected the lables and added Transferred category to Final Disposition.

2. Updated Report R026, R027, R038 reports.

NOTE: Include in release Version 1.0d.

	:	Rejected:	/ /	Tester:	JOHN CARTER

Problem: (1) AMS1 John Corpuz, Pacific Missile Range, Kekaha, HI. The Comments field for E3 Advancement is should be disabled for Paygrades E3 and above and enabled for E2's and below. It does not work correctly all the time.

(2) NC1 Gillian Carter, USS Hue City (CG 56). Requested that EAOS extentions be added to PDB Profile Sheet R041.

(3) AD1 Keith,NASNI, 735-4994. Can not print multiple PDB's from Browse\Edit PDB Profile Sheet screen with the PDB Profile Sheet button.

Solution: (1) Modified code in form browpdb events load and updatelist so record pointer in cipm.dbf would correspond to user-selected name in listbox lst1. Also, added user-selected subject to three 'Other' remarks at bottom of PDB Profile Sheet R041.

NOTE: Include in release Version 1.0d.

Phone:	476-2137	Received:	04/12/2001		Release: 1.0d
Version:	VER 1.0C	Verified:	09/20/2001	Release:	Rel.1.0d
	:	Rejected:	/ /	Tester:	JOHN CARTER

Problem: 1. When a UIC, DEPT or DIV counselor logs onto CIPM 99, the user can not print any General Report.

2. The statistical reports (R044A/B/C/D) displays more than one UIC's statistics even though I picked just one UIC.

After selecting a report from the General Report screen a OPEN file screen appears asking for the location of a file. After clicking the Cancel button the Program Error message appears "File 'membercursor.dbf' does not exist." with three options: Cancel, Ignore, or Help. Cancelling will shut CIPM99 down. Ignoring will continue CIPM99 but the list box with the list of organizations is blank and no report are available.

Solution: 1. The organization list is not being initialized on the the Report Query screen. The refereneced file has not been creating at that above time during the form load sequence.

2. Changed the Retention Statistics references from Terms to Zones.

NOTE: Include in release Version 1.0d.

17. **00066** Exporting Members by Office does not work correctly

Version:	VER 1.0C	Verified:	09/11/2001	Release:	Rel.1.0d
	:	Rejected:	/ /	Tester:	JOHN CARTER

Problem: 1. NC1 J Moscyanski. I tried to export members via select by offices, it didn't work. It shows only 2 out of 8 offices, I tried to reindex and all it did was show 2 others. I tried to export one of them because that was the office I wanted to export. It showed 114 members that is incorrect.

2. John Carter. The Member list is missing member's office information: UIC, DEPT,DIV and Office Name.

vr/

Solution: 1. Add Group By office,uic,dept,div clause in the PICKDEPT when populating its listbox of offices.

Tested OK - used data from NAS Signouella and USS Enterprise.

NOTE: Include in release Version 1.0d.

	:	Rejected:	/ /	Tester:	JOHN CARTER

Problem: NCC SMALLS. I imported 359 members from PC EDVR. CIPM 99 created 359 new offices, one for each member.

Solution: After examining their data, it looks like the USERS.CDX file and the data container, CIPMDATA.DCX, does not have the MUIC index. I fixed the data by illiminating the duplicate offices. In future releases, the CDX indexes must be hard coded in the Rebuild index function and the distribution files should have the latest indexes.

Problem: Reports: R041, R074, R077, R092

DBF: RPT.DBF, WORKFL.DBF, CHELP.DBF,

1. Need a new report added to CIPM99 to print a alpha listing of PDB information.
2. NC1 Arnold Under PDB's need more room or ability to add another line like in the EVAL section.
3. (REF:<http://www.bupers.navy.mil/navadmin/nav01/nav01084.txt>). Change Onboard PDB time to onboard+2 weeks.
4. (NCC Tammy Long/OPNAVINST 1040.11). Change PDB reference to CDB (Career Development Board).

Solution: 1. Created General Report R092.

2. Changed references from PDB to CDB.

Bug # Description

Report: R010, R044A,R044B

1. NCC James Bradford DSN 551-4916, NMCB Port Hueneme, CA. The TERM (1st, 2nd and Careerist) is being calculated by CIPM 99 Version 1.0c. This should be changed to be set only by the Counselor and not done automatically.
2. Master Chief Doyle. Change Terms to Zones:

Solution: 1. Change CIPM 99 to not automatically update the 'TERM' status. Allow the counselor to change the status.

NOTE: Include in release Version 1.0d.

2. Master Chief Doyle. Change Terms to Zone:

Zone

- A - < 6yrs
- B - < 10yrs
- C - < 16yrs
- D - < 20yrs
- E - >=20yrs.

Version:	VER 1.0C	Verified:	09/14/2001	Release:	Rel.1.0d
	:	Rejected:	/ /	Tester:	JOHN CARTER

Problem: 1. This is a EDVR import problem; for some reason the "number of dependants", and the "enrolled in EFM", and the "EFM date" that are on the EDVR do not always import into the CIPM program. Can you look at this?

2. Add code to prevent the wrong text file selection when importing PC EDVR data.

3. NCC Peter Koenigseder, RTC Great Lakes, 792-2963:

- (1) Update "Warfare Designator", "Marital Status", "Inoperative Extention" fields everytime PC EDVR data is imported for all members.
- (2) Add switch to PCEDVR field to make updating the "RATE" field optional.

Solution: 1. Added Checkbox for updating/not updating PCEDVR Rates.

2. Updated warfare designator, marital status, number of dependents, inoperative extentions for both active and archived records when importing PCEDVR data.

NOTE: Include in release Version 1.0d.
